Dear Sirs:

Concerning profanity
and nudity being added to
primetime TV. I believe we
have too much on already.
Rather than adding I would
be very happy if you took
it off all together.

Our God must be
ashamed of us for allowing
what we have.

God bless your
decision.

I am apposed to any veiwiny
of body exposure or expressions
on TV.

I feel this is a great contributor
to sex crimes to females, both
young and old. Youth exposed
to such filth preverts their
minds and is causing more
problem than we may realize.

To many people are having
sexual relations before marriage
that can be related to television
and is a sin to the 10 Commandments
"Thou shalt not commit adultery."

The human body is a sacred,
and is created in God's image
and should not be treated with
disrespect.

Thank you for considering my
statement and feelings.

RE: Broadcast Decency Standards—Opposed to the Proposed Rules Change.

To Whom It May Concern:

I am writing regarding the FCC dropping current broadcast decency standards that ban explicit profanity and "non-sexual" nudity.

When does it stop? Please consider morals, values, and common sense. What message are you sending to our young children and families? We don't need more negative to go along with all the violence and senseless viewing we already tolerate!

You have every opportunity to make a positive impact, make positive choices, and promote positive viewing, DO THE RIGHT THING!

I am prepared to discontinue cable services if this proceeds and the current broadcast decency standards are dropped, television is no longer safe for family entertainment. I am disappointed and discouraged.

Thank you for your attention to this sensitive matter.

Respectfully,

Kaye Lanes

Dear Sirs:

Please be advised that I have heard that you are considering ^{broadening} the use of sex, violence and profanity on television.

Let me strongly encourage you not to do so. Our programs are broadcast not only here but abroad and the impression our enemies get is that we are a Godless and pagan nation. This belief bears fruit for example 9,11 and the Boston Marathon bombing.

Please keep in mind that restricting sex, violence and profanity on television is not only the right thing to do, but is in our national interest.

Sincerely,

Rob Nelson

To Whom It May Concern,

I am requesting that you do not drop current broadcast decency standards. Why do you think it is so important to air shows that have vulgar language and nudity in it? Are you not interested in what is happening to the youth and young people of the world? They are beginning to wonder what is normal anymore. Is nothing wrong anymore?

Thank God, we have to option of cancelling our cable and buying movies and books that will help promote people to live a more moral life. I believe people are getting tired of all the trash that you have been presenting to us. It is time for a change in our country.

Dear FCC,

It is with greatest concern to hear you would even consider lowering the decency standards on TV! The level of the quality on TV today is so pitifully low and exposes the innocent children of our Nation to profanity and homosexuality that the parents of this society are truly ashamed of ourselves that we have allowed it to progress to such low levels. Now to consider lowering the bar even further just to avoid scrutiny and interptational pressure is a sign of this administration's

unfitness to lead our Nation.

Can you not see each and every one of the little steps backwards further weakens the moral back bone of our once great Nation?

The Declaration of Independence asserts this is a Country of Christians, built by Christians, for Christians and to be run by Christians. The moment we allow this Administration to push God out of our society; God will withhold His blessings and protection from all evil ~~and~~ terrorists, Satan and weather.

We must bring God back into our society and live by His Commandments or face the consequences.

Please do not lower the TV decency standards!

May God have mercy on us!
